

Logo Guidelines

Please follow these guidelines when positioning the Moneris logo.

- Distance between logos should be, at a minimum, equal to the width of the uppercase “M” in the Moneris wordmark
- Our logo must always be framed at the top, bottom and sides with a zone of clear space equal to or greater than “1M”, where 1M is equal to the height of the uppercase “M” in the Moneris wordmark
- Logos should bottom align with the base of other logos; if using the Be Payment Ready lockup logo, align with the base of the Be Payment Ready tagline
- The logos should appear roughly the same size and height
- The same colour approach should be used for all brands: either full-colour, all black or all white logos

Which Logo to Use

On white backgrounds, please use our logo in full colour.

- Full Colour Lockup, English

- Full Colour Lockup, French

- Full Colour, Bilingual

For colour backgrounds, please use our logo in either white or black for legibility.

- White Knockout

- Black
